DETAILED ACTION

Claims 1-14 are pending in the application.

Election/Restrictions

Applicants' election without traverse of Group II, Claim 1 - drawn to products, in the reply filed on March 5, 2003 was acknowledged in the Office Action dated April 29, 2003. In a telephone conversation on April 16, 2003 between Mr. Kent Herink and Examiner Small, Applicants' representative elected the species of KPE00001016.1, found on page 14 of the instant specification (reproduced below).

Example KPE00001016.1

Art Unit: 1626

Claims 2-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions. Election was made **without** traverse in the reply filed on March 5, 2003.

Rejections made in the previous Office Action that do not appear below have been overcome. Therefore, arguments pertaining to these rejections will not be addressed.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: not all of the substituents found in the variable definitions are found, for example, on page 9, lines 7-8 (i.e., Bn, etc.).

Art Unit: 1626

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, "Bn" is not defined in the claim or in the specification.

Response to Arguments

Applicants' arguments filed September 19, 2005 have been considered. However, Applicants have not argued the objection to the specification. Further, Applicants have not argued the rejection of claim 1 as it pertains to the "Bn" substituent. Additionally, Applicants have not amended the instant specification or amended claim 1 to overcome the rejection.

Art Unit: 1626

Therefore, the rejection is deemed proper and is maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory

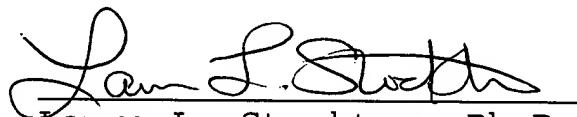

Art Unit: 1626

period for reply expire later than SIX MONTHS from the mailing date of this final action.
